

Science Week

We have had a fun filled week taking part in lots of different science activities. The week started with us going into the Moon Dome and finding out about the Moon, Sun, Stars and Space. Later in the week we had a Science workshop run by Mark from Hands on Science, where we investigated whether things float and why. We have done lots of science experiments. As part of our Science topic we planted Cress seeds and discussed what will make a healthy plant.

Fine diner/Proud cloud

Our fine diner is **Danny**. For always being sensible in the Dining Hall when eating lunch.

Our proud cloud is **Elsie**. For writing a great non-chronological report about Stars.

Have a lovely weekend. 😊

Aslan Class Newsletter

Friday 10th March

Learning this week

English: This week in English we have used what we learnt in the Moon Dome to plan and write a non-chronological report. They thought about the interesting facts to write and how to engage the reader in the introduction.

Maths: This week the children have been learning how to solve addition, subtraction, multiplication and division questions. We talked about the vocabulary we use for each operation and what the signs look like. Then when reading the number sentences we circled the sign to know what operation it was before solving the problem.

Pre-learning

English: Next week, we will be starting a unit of work on Jack and the Beanstalk. It would be a benefit to your child if you read the story together and discussed what happens in the story, the characters and the how the characters have been described.

Things to remember

- ✓ Library books - **Wednesday**.
- ✓ Spelling dictation on Fridays.
- ✓ Please be prompt collecting your children at the end of the school day.
- ✓ Family Forest day **Saturday 18th March**
- ✓ INSET day **Friday 31st March** so school will close for the Easter holiday's on **Thursday 30th March at 12.00pm.**
