

Small Acts of Kindness

As you know each class has been given a Small Acts of Kindness task. This class has been given the task of collecting colouring books and colouring pens/pencils to donate to a doctor's surgery. We have had a few donations, Thank you!

During the last week of term, we will be taking what we have collected to a local doctor's surgery.

If you have any donations, please send them in ASAP.

Thank you for your support with this project.

Learning this week

English: This week in English the children have been learning the story of 'Jack and the Beanstalk' which they have internalised by reciting it with a story map and actions to help. We have used this to discuss the features of a story, infer how the characters are feeling and the language used in story writing.

Maths: This week the children have been learning about 2D and 3D shapes. We revised the names of both 2D and 3D shapes and used mathematical vocabulary to describe them. Also, this week we have been learning about money. We began by adding coins together to find amounts and then we moved onto working out change. When shopping, ask your child how much change you need!

Topic: The children have been designing their own inventions and will move on to making a prototype of their idea next week. They will even write a letter for a Patent!

Pre-learning

Maths: Next week, we will be learning about Time. It would be beneficial for your child if you could ask them to tell the time at different points in the day on analogue and digital clocks. It would also be a good for them to find out how long an activity takes when given starting and finishing times.
