

This week

Our highlight of the week was Yarn Bombing on Thursday afternoon, the children were really engaged and loved taking part in a whole school community event. We can't wait for the final product.

A special mention to our Proud Cloud this week is Sara for persevering during yarn bombing and learning how to plait.

Our Fine Diner award this week goes to Molly for consistently showing great manners in the lunch hall.

Pre learning

This week's pre learning/ pre viewing is slightly different, we would like you to do some post learning. Following this week's Maths focus on time, it has come to our attention that lots of the class struggle to tell the time more than o'clock and half past. Please can you spend some time with your child practising telling the time, converting from 12 hour to 24 hour and then using this information in real life contexts. If your child is confident with this, move on to the months of the year, how many days in each month, a fortnight and a year. Thank you 😊

Dahl Class Newsletter

Friday 18th November

We hope you all have a super weekend!

Mrs Gilham, Mrs Foster and Mrs Bird

Maths and English

This week in maths the children have been learning about converting time from 12 hour to 24 hour and using this knowledge in problem solving.

This week we have started a new unit in English around the book Beware of the King. We have been acting out parts and writing our own play scripts.

Yarn Bombing

We all had a fantastic afternoon on Thursday, where we were plaiting wool, and weaving. The children really persevered and taught each other how to plait and weave. The tree will look fantastic! Will have to look out for Dahl classes masterpieces!! A big thank you to Stanley's mum and Chloe's Grannie who came in to help us.

Dahl Class Scientists

On Wednesday afternoon we continued with our science topic Changes and Properties of Materials. We were mixing warm milk and vinegar to make casein plastic and we put bicarbonate of soda in vinegar to make carbon dioxide. We had lots of fun being scientists and learnt what are two new key words are: reactants and products. A special mention to Dahl class scientist of the week, who was chosen by his peers for writing a fantastic final statement including our key words, well done Eli.
