

This week

Our highlight of the week was sharing morning and afternoon. It is always a great opportunity for parents and carers to come and see how we have been getting on and what fantastic work we have created over the past half term.

We love to share our learning!

We also celebrated Mother's Day with thanks to the FOHA and had a special breakfast! Not to mention, dressing up for Red Nose Day and raising lots of money for charity 😊

A special mention to Sophia, our Proud Cloud this week, for taking on harder challenges recently and pushing herself 100% Our Fine Diner award this week goes to Velko for showing such enthusiasm about the fun food cards that have been awarded!

Scientist of the week

This week I found it exceptionally tricky to choose a scientist of the week – this was because the whole class worked brilliantly to make an aerodynamic boat. Their write ups of the investigations were fabulous and filled with technical vocabulary. Therefore, I pronounce all of Dahl class our scientists of the week!

Dahl Class Newsletter

Friday 24th March

We hope you all have a relaxing weekend!

Mrs Gilham

Maths and English

This week we summarised our learning about how to measure angles, how to use a protractor properly and how to solve a variety of problems on angles.

In English, we have continued with our work on Jack and the Beanstalk for 'Talk for Writing'. We created a story map of the original version of the traditional tale and amended it to make our own characters or change of setting. This will help us when we write our very own traditional tales next week.

Reading Challenge sponsorships

A plea to parents to pay the sponsorships of the big reading challenge that the children took part in last half term.

Please do this as soon as possible via parent pay.

Pre learning

This week's pre learning/ pre viewing is: Continuing with work on angles for maths. We will be using what we have learnt so far to answer questions on angles and problem solving using this knowledge. In English we will be writing our very own traditional tales, completely independently, to apply all of the information we learnt in the unit using the key features of a traditional tale.

What's happening Next Week?

It is a short week next week and everyone is excited for the Easter holidays! On Thursday we are looking forward to taking part in the school 'Fun Run' organised by Year 6 in order to raise money for charity as part of their Act of Kindness. Parents are welcomed to the event and we will be taking donations at Rothamsted Park – we hope to see as many of you there, trainers at the ready, to take part in the run!
