

This week

Our highlight of the week was dressing up for World Book Day and participating in a variety of activities including art, music and PSHE – we had a blast!

A special mention to our **Proud Cloud** this week who is Molly K for using such a positive attitude towards her spellings. She has really pushed herself to do better! Our **Fine Diner** award this week goes to Callum, for being so kind and caring to children at lunch who find it harder to be in the dining hall.

Pre learning

This week's pre learning/ pre viewing is:

- Volume - Please talk through how to find the volume of something (eg liquid in a jar) in preparation for maths next week.
- In English we will be looking at non-fiction reports with the aim of creating our own reports on teeth to celebrate science week!

Dahl Class Newsletter

Friday 3rd March

We hope you all have a relaxing weekend! 😊

Mrs Gilham and Mrs Bird

Maths and English

This week in maths the children have been solving problems on how to find the area of simple and more complex polygons. This was well received by the children and linked well with their prior learning on perimeter. Any help with getting your children to practise with grid method and bus stop method would be greatly appreciated as it is still an area that needs constant reviewing!

In English this week we have continued with our unit of work on poetry. We really enjoyed learning poems over the past couple of weeks that we ended up performing in assembly – I am sure you will agree that the children who performed did a great job and showed real courage and confidence!

To those involved with the Sponsored Read

The final day for the sponsored read challenge was Thursday 2nd March. We will soon find out if anyone managed to achieve the challenge set!

Swimming

A reminder to put names on **all** items of clothing and towels too please, to avoid confusion when they are getting changed!

Science

Scientist of the week

A big well done to our scientist of the week from last week, Toby! He showed great scientific knowledge and was super keen to share it with us.

Science event for all the family

On Tuesday 7th March we are hosting another science evening for all the family to attend. The last one was a real success and we would love to have even more of you for this one! Timings are from 6.30pm – 8.00pm. It is great fun, so come and join us for the challenge!
