# TIME TO GET CRAFTY

This fun activity sheet can help your pupils design their own tea cup invitations for your Coffee Morning. Then they can use them to invite their friends and family. You can use any spares to spruce up your cake stall too.

## Step 1

Photocopy the other side of this sheet and give the children art materials like pens, chalk and coloured paper. They'll need an adult to help them cut the invitation out and gluing decorations to it.

## Step 2

Get your pupils to customise their invitations. Depending on how old they are, you might need to help them writing the date and the time.

## Step 3

Encourage them to hand out their invitations. And you can use any spares you have left over to decorate your cake stall on the big day.
